ASHLEY D. BEVERLY

Business Systems & Product Operations Professional

313-595-1077 | AshleyDBeverly@gmail.com | Royal Oak, MI | https://www.linkedin.com/in/ashleydbeverly/

SUMMARY

Business systems professional with 10+ years of experience in a highly regulated industry, spanning client-facing operations, underwriting, and enterprise technology. Skilled at translating business needs into clear, actionable requirements and bridging the gap between stakeholders and development teams. Experienced in documenting workflows, facilitating cross-functional meetings, and driving system adoption. Brings a detail-oriented, process-driven approach to backlog management, product documentation, and operational execution in complex software environments.

CORE COMPETENCIES

Requirements Gathering & Documentation | Cross-Functional Stakeholder Facilitation | Business Process Analysis | Workflow Automation | User Story Development | Agile/Backlog Support | System Adoption & Training | Salesforce | ServiceNow | Data Analysis & Reporting

EXPERIENCE

Rocket Mortgage

Senior Information Developer *March 2023 – Present*

- Partnered with cross-functional stakeholders across product, operations, and technology teams to gather business requirements, define scope, and translate needs into scalable system solutions.
- Documented workflows, user scenarios, and edge cases to support development readiness, ensuring clarity before work entered the build phase.
- Implemented AI-assisted automation within a high-volume internal platform, achieving a 90% success rate and saving approximately 6,800 hours per month across 50K+ monthly interactions.
- Led implementation and configuration of the Contact Center AI Platform, managing system integrations, environment setup, and enterprise rollout across multiple teams.
- Maintained 90%+ system success rate for core applications through ongoing testing, troubleshooting, and performance optimization.
- Translated business requirements into rule-based workflows and automation within Salesforce, improving process efficiency and consistency.
- Led user enablement initiatives across Salesforce, Dialogflow, and Contact Center AI, developing training and documentation that improved system adoption and team efficiency.
- Served as liaison between business stakeholders and technical teams, resolving outstanding questions and ensuring alignment before and during development.

Team Leader, Information Developer *October 2020 – March 2023*

- Led a team of developers and content creators, managing prioritization, planning, and execution across multiple concurrent initiatives.
- Established documentation standards and delivery processes that improved team consistency, efficiency, and quality of output.
- Facilitated cross-functional collaboration sessions to drive problem-solving, requirements clarity, and continuous improvement.
- Mentored and onboarded team members, supporting skill development and successful integration into workflows.
- Recognized with the 2022 Rock Honor Award: Best Performance in a Leading Role.

Information Developer *August 2017 – October 2020*

- Collaborated with subject matter experts and stakeholders to define requirements and ensure alignment with business objectives.
- Conducted user testing and gathered qualitative and quantitative feedback to iterate on solutions and increase adoption.

- Analyzed usage and performance data to identify trends, inform prioritization, and support ongoing system improvements.
- Developed interactive, user-focused tools using front-end technologies, improving usability and engagement.

Underwriter *August 2016 – August 2017*

- Evaluated mortgage loans for compliance with regulatory guidelines in a high-volume, detail-oriented environment.
- Collaborated cross-functionally to improve accuracy and efficiency in loan processing workflows.

Mortgage Banker *April 2015 – August 2016*

- Guided clients through the mortgage process from application to closing, providing tailored product recommendations.
- Built strong communication and customer-focused problem-solving skills managing a high-volume pipeline.
